

SOLUTION OVERVIEW

LIGHTHOUSE CloudCompass

for Microsoft 365

A membership program designed to keep you ahead of change in the dynamic cloud computing landscape.

MITIGATE LEGAL AND COMPLIANCE RISK CAUSED BY CONTINUOUS CHANGE IN CLOUD SOFTWARE.

Challenges We Address

Cloud based software such as Microsoft 365 is always evolving. A robust stream of software updates are continuously being pushed out, and that's how Microsoft is constantly improving M365 - essentially, you always have the most recent 'best' version of the software. But this rapid rate of change presents real risks for compliance.

Staying abreast of the technology changes in order to manage legal and compliance programs is not new, but the fast-paced nature of that pursuit now requires exponentially increased time-allocation and a deep focus from a unique mix of technology and legal expertise. With every release, it's critical to utilize those dedicated resources to uncover updates with material impacts and summarize actions required to assure defensibility, mitigate compliance risk, and maintain day-to-day legal operations, which is difficult for organizations to source and manage alone.

Benefits We Provide

CloudCompass is a membership program designed to prepare and enable businesses to stay ahead of changes specific to compliance in the dynamic M365 cloud environment without shouldering the lift and cost of internalizing specialty resources. CloudCompass provides timely, curated updates prioritized by risk, backed by expert support to keep you informed and able to maintain compliance, and defensibility mitigate risk of your legal programs in M365. Fueled by M365 product experts, legal and compliance SME's committed to continuously monitoring, analyzing, and testing all aspects of M365 releases to pinpoint changes impacting legal and compliance. Combined with tailored risk assessments and actionable recommendations to resolve issues as quickly and efficiently as possible creates a one stop shop approach to reliably and effectively maintaining legal, compliance, ediscovery, and information governance programs.
